

# Join our team

**Are you an experienced Demand Planner with an understanding of Export? Are you able to maintain forecasting tools and manage data quality to ensure robust predicted demand figures are generated to inform the Sales and Operational planning (S&OP) process?**

**If the answer is yes - then look no further. Church & Dwight UK Ltd have an exciting opportunity for a Demand Planner to join our team based in Folkestone, Kent.**

Your role will work alongside Export, Production Planning and Customer Service's to ensure the latest finished goods demand plan is reflected in SAP and changes are well analysed, to drive system maintenance and forecast accuracy working with distribution partners.

You will maintain the ongoing 12 month forecast for UK-Export business, to support the entry, storage and generation of forecasts and to produce accurate KPIs.

You will maintain the Manugistics system and continuously improve forecast accuracy. Working with a cross-functional team you will make recommendations and ensure that inventory & customer service risks as well as business growth opportunities are highlighted via S&OP so that appropriate business decisions are made.

You will lead improvements to processes and share good practice within the Demand Planning team.

The successful candidate will have:

- Educated to Degree level or equivalent
- Previous experience of working as a Demand Planner (years?)
- Experience of SAP and Manugistics
- Previous experience of managing large SKU portfolios
- Excellent communication skills
- A high level of attention to detail and extremely results oriented
- Good knowledge of MS Office – particularly Excel, Access and PowerPoint
- A background in FMCG would be an advantage.
