MAGNUM™

LARGE SIZE CONDOMS

FROM THE BRAND THAT PUT BDE ON THE MAP.

**COMING IN HOT FROM THE U.S WITH A WHOLE LOT OF SWAG,
MAGNUM™ LARGE SIZE CONDOMS INTRODUCE MAGNUM™ RIBBED AND BARESKIN™.**

Big D*ck Energy – also known as BDE - is the je ne sais quoi of internet charisma that speaks for itself and comes from a deep, well-endowed security in your sense of being, that you exude while going about your day-to-day life.

Displaying a box of MAGNUM™ Large Size Condoms in the bedroom is without doubt an ego-inflation - what man wouldn't want to be among the class of MAGNUM™ users? But this begs the following questions; how do you know if you're wearing the right size and does size really matter (condom size that is)? A recent survey carried out by MAGNUM™ identified that men would feel more confident in their sexual performance if they could find a condom that fit suitably. While 43% of men felt that the condoms they have been using are too tight at the shaft of the penis, but at the same time struggle to identify the correct size or shape for them specifically.

When it comes to sexual pleasure and putting your tool to use, condoms are often wrongfully denounced as the number one public enemy of sexual pleasure. But that may be down to the right one not being used during intercourse. The perfect pairing can help bring your intimacy to the next level. So find the right condom for you before you go in with the help of the online MAGNUM™ condom fit guide. Take it from us, it'll help in the long run (no pun intended).

BIG FOR COMFORT. BIG FOR PLEASURE.

Does size really matter? – the question most men ask themselves at least once in their lifetime. Generally speaking, yes it does. But not in the way you may think. Everyone has their preferences in bed but there's no rule stating how sexual pleasure is determined by the size of a penis. In fact, many women would even admit to preferring smaller as long as it's well utilised.

TROJAN® CONDOMS, the makers of MAGNUM™, understand there is not a one-size-fits-all solution - literally. The original MAGNUM™ has come a long way since initially launching, with a wider top compared to the standard TROJAN® condom to provide more headroom as well as being tapered at the base to stay on securely. Yet the ethos of the brand remains the same; condoms that are built to safeguard against breakage whilst having a barely-there feel in order to not kill the mood.

So, how do you know if the condom size you're using is the right fit for you? To summarise nicely, you test drive. It's important to take into account that you don't need to know what the fit looks like in action and we wouldn't recommend mid-intercourse being the time for trial and error. Why not rehearse at home alone to see what feels comfortable and secure. Go between a standard size TROJAN® condom and a MAGNUM™ one to ensure you have comparative measure. A well-fitted condom should feel snug so it doesn't slip off mid-intercourse but also not aggressively tight. You also want to ensure that it will roll all the way down without too much struggle - if the condom doesn't reach the base of the penis when unrolled you need a longer length. Alternatively, if a condom is too long it can be left unrolled at the base. MAGNUM™ prides itself on providing ultimate comfort and feel and at the end of the day, comfort is everything.

Because MAGNUM™ Large Size Condoms provide more headroom, this is not only great for increased comfort but also means that it is easier to put on for ease when getting into the moment. Meaning that you can enjoy the benefits of a great fit when putting it on and getting it on.

THE ONLY BRAND WITH A PRODUCT RANGE IN LARGE SIZE.

MAGNUM™ is the King of Fit and the collection includes MAGNUM™ RIBBED and BARESKIN™ - both of which provides great fitting comfort and feel. While doing their part of protect against STIs and pregnancies without killing the heat (or nerve stimulation to turn - and keep you both - on). Allowing consumers to be the sex-positive, healthy guy to do his bit in turning safer sex into better sex.

MAGNUM™ BARESKIN™ 10'S

Maximise sensitivity, RRP £9.99

Go big while feeling like it's barely there. The thinnest condom from the MAGNUM™ Collection, MAGNUM™ BARESKIN™ Large Size Condoms were carefully designed to bring you next-level sensation and comfort - with the wider, contoured shape helping to amp up comfort even more. Not only are they larger than standard latex condoms but also thinner than any other condom in the MAGNUM™ line. Talk about the best of both worlds. MAGNUM™ BARESKIN™ also features the signature silky smooth lubricant and reservoir end for increased protection.

MAGNUM™ RIBBED 12's

Increase stimulation, RRP £8.99

Elevate your pleasure in a big way. MAGNUM™ Ribbed condoms are thoughtfully designed to enhance sensation for both partners with spiral ribbing toward the tip for him and spiral ribbing toward the base for her. Larger than the standard latex condoms on the market for larger-than-life comfort, other features include silky smooth lubricant and a special reservoir end for extra safety.

Each condom from MAGNUM™ is created using premium latex to reduce the risk of pregnancy and STIs, as well as being electronically tested to help ensure reliability.

-Ends-
