WITH AMERICA'S NUMBER 1 CONDOM BRAND, TROJAN®.

TROJAN® Brand Condoms is the most trusted condom brand in the US, promoting a fun, healthy and safe sex life for over 100 years. Its countless references in popular culture and US TV shows have made the brand incredibly popular across the world. TROJAN® offers a variety of condom options with safety and pleasure in mind as well as sex toys to help aid in the best intimacy experiences.

Since 1916, TROJAN® has been on a mission to unleash people's confidence in all aspects, by delivering high-quality products to equip consumers with the tools to carry out a responsible, yet great sex life. Protecting both parties physically and offering peace of mind from unintended pregnancies and STIs, whilst enabling the thrills and enjoyment to be relished to its full potential. After all, physical and emotional pleasure is what makes sex great. **The pleasure you want, the protection you trust. That's the TROJAN® charge.**

But is there such a thing as the perfect condom? Well, when it comes to TROJAN® there is. With a selection of condoms to choose from, gone are the days of a bad fit and reduced sensation - it's time to meet your match. The condom you choose is extremely important when carrying out intercourse as it can improve pleasure and protection for BOTH partners. Even if you're finding pleasure in your current go-to condom, trying a new shape brings new experiences whilst taking sensation and pleasure to unimaginative heights.

Wave goodbye to the outdated notion of condoms fitting uncomfortably and that 'one-size-fits-all' mentality...

So how do you know if a condom fits correctly you ask? A well-fitted condom should always feel snug so it doesn't slip off mid-intercourse but also not aggressively tight. You want to ensure it will roll all the way down without too much struggle - if the condom doesn't reach the base of the penis when unrolled you need a longer length and you may want to consider Magnum Large Size Condoms by TROJAN®. If you are unsure, why not get the help of the online TROJAN® Product Quiz? After all, TROJAN® knows a thing or two about great fit and shape.
